

RESEARCH & DEVELOPMENT TECHNICAL INTERNSHIP / CO-OP

Want to influence the packaging industry & help bring new products to market?

Silgan's Research & Development team is looking for bright, energetic individuals who would like to experience a technically focused, hands-on, corporate lab environment!

What skills can you expect to learn?

- How to qualify materials, develop products & influence design through testing, data collection & analysis.
- Take part in the Product Development Cycle, from concept to consumer use
- Be introduced to the plastic manufacturing process through prototype molding, high speed molding & assembly equipment... **& much more!**

INTERNSHIPS AVAILABLE!

SUMMER/FALL - JULY through DECEMBER 2023

SPRING/SUMMER – JANUARY through JUNE 2024

Location: Downers Grove, IL
