

51R84S LABEL INSPECTION

The 51R84 provides 360-degree inspection of labeled products, including but not limited to beverages, sauces, and household goods. With a multi-camera inspection at speeds up to 700 containers per minute, this system accurately detects label and labeling errors to ensure your product best represents itself and your brand on the retail store shelf.

INSPECTIONS INCLUDE:

Label Folds and Tears

Spliced and Skewed Labels

Wrong and Missing Labels

Label Height and Other Application Defects

The world's most trusted brands trust Silgan to be their Partner for Innovation

WHY CHOOSE THE SILGAN 51R84?

Simplicity: Installs easily over existing conveyor, saving valuable floor space. The user interface simplifies changeovers and new job setups.

Efficiency: 100% product inspection prevents defects from going downstream. The proprietary system intelligence prevents poor product runs that result in costly spoilage.

Reliability: The stainless steel, NEMA 4X design, withstands food and beverage plant environments. Our dedicated technical service team is there for all your inspection needs and our optional service agreement program makes it all hassle-free.
